How to find an article

1. Log into the Coastline Virtual Library.
2. Select the ProQuest or EBSCOhost from the list of databases.
3. Enter appropriate keywords in the keyword boxes.
4. Select appropriate database fields in the database field boxes.
5. Click on search.

ProQuest

Enter keywords appropriate for selected database field
Select database field

Check to limit results to academic scholarly journals for research-based articles that tend to be longer and more authoritative than articles in general interest magazines

EBSCOhost

Enter keywords appropriate for selected database field
Select database field

Check to limit results to academic scholarly journals for research-based articles that tend to be longer and more authoritative than articles in general interest magazines
